EDUCATION

The University of Hong Kong

Bachelor of Engineering in Computer Science

Triam Udom Suksa School

Science - Math Program

Hong Kong

Present

Bangkok, Thailand

2022 - 2025

WORK EXPERIENCE

Tam Wing Fan Innovation Wing, The University of Hong Kong

Student Research Assistant, Motion Capture Team - Spatial Intelligence Group

Present

- Designing motion capture pipeline to analyze gait patterns for detection of motor disorders
- Project Experience: *Motion Capture for Health*
 - Utilizing motion capture to increase efficiency in diagnosing movement associated diseases

Population Emergency Medicine Research Group, The University of Hong Kong

Student Research Assistant, DoEM Research Team - HKUMed

Present

- Exploring AI integrations with big data health records under Dr. Abraham K C Wai
- Project Experience: *Analysis on reported non-fatal self-harm cases in Hong Kong from age 18 to 25*

ACHIEVEMENTS & PROJECTS

Achievements

- Recipient of HKU Undergraduate Entrance Scholarship for Outstanding Academic Talents 2025-26
- Placed top 2.5% in Super AI Engineer SS4 a program consisting of six 48-hour AI hackathons
- Awarded with Honorary Award in Applied Science Track, SST - NSM Science Project Competition
- Competed in Google Cloud Vertex AI Agent Builder Hackathon
- Competed in Alliance Medical Innovation Challenge
- Competed in UniHack 2024 by Chula Tech Startup

Projects

- Brain Tumor Identification System - [TumorVision](#)
 - Designed the Model Architecture for MRI Tumor classification (96.09% cross-validation acc)
- Daily News Summary - [The Thinking Times](#)
 - Automated daily news summaries via Discord and an NYT-style interface, powered by Gemini
- 2D Battleship terminal-based game - [Sinking Ships @ Strait](#)
 - A 1v1 terminal strategy game with polymorphic fleets, stealth mechanics, and procedural maps.
- ThreeJS + React Portfolio Website - [Developer Portfolio](#)
 - Interactive 3D portfolio website with fluid motion using React, Three.js, and Framer Motion.

SKILLS, ACTIVITIES & INTERESTS

Technical Proficiencies: Python, C, C++, R, HTML/CSS, Tensorflow, Pytorch, OpenCV

Languages: Thai (Native), English (IELTS 8.0)

Certifications & Training: Harvard's CS50x, Stanford's Machine Learning Specialization, MIT's Introduction to Deep Learning

Activities: High School Program's Secretary and Coordinator, Triam Case Comp's staff member

Interests: Medical AI, Computer Vision, Image Processing, NLP, IoT, Embedded Systems
